

Appropriate Interventions

(Results are more instructive when they logically relate to the offense and adult life is simulated.)

1. Withdraw a privilege the student values.
2. Require the student to make amends, especially in cases of causing others harm, inconvenience, or property damage.
3. Establish a list of appropriate service projects.
4. Discuss the idea behind performing community service.
5. Discuss taking responsibility for harmful actions.
6. Explain infringement on the rights and feelings of others.
7. Inquire of student what would have happened if an adult had chosen a similar action.
8. Paint a scenario of the future with regard to the problem.
